Week 3 Meeting Notes – Study Group Matching Web App
Attendees: Shiyu, Kelly **Project Phase:** April – Week 3

✅ Progress Updates

1. **UI Design**

   - Completed high-fidelity mockups for:

     - Landing page

     - User onboarding flow

     - Basic profile creation

     - Match Results Dashboard

   - Established core design system (color palette, typography, component styles)

   - Prioritized user clarity and intuitive layout for new students

For next Week

2. **Database Planning**

   - Dataset and schema *not yet completed*

   - Decided to push dataset creation and schema definition to **Week 4**

   - ER diagram and compatibility scoring model to be drafted alongside

3. **Tech Stack & Setup**

   - Finalized tech stack: React + TailwindCSS (frontend), Node.js + Express + MongoDB (backend)

   - Discussed use of Firebase Auth for email/password sign-in

   - Environment setup will start with auth system next week
